

SERIES ACIES

Trimless aluminum profile for corner mounting

This trimless series is designed to sit very inconspicuously on the outer edge of a corner, without a frame, and projects its light at a 45 degrees angle. This series becomes very discreet once installed in the corner and will give a unique style and lighting to your environment. It offers several options of powers, lenses and assembly allowing you to adapt it to your needs. Promoting better heat dissipation, this series will offer you its full potential for many years to come.

Description	mm	Inch
B - Width interior	9.50	0.3740
C - Width exterior	13.40	0.5276
D - Height	14.00	0.5512
X - Measure	22.70	0.8937
Y - Measure	48.80	1.9213
Z - Measure	10.00	0.3937

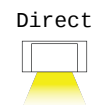

FEATURES

- Discreet
- Corner mounting
- Trimless
- 45 degrees projection angle
- Can be cut according to your needs
- Allows continuous joint mounting
- Direct lighting
- Wide choice of lens
- Wide choice of colors and finishes
- Clear Anodized Aluminum 6063T5
