

SERIES INDUMENTIS

Aluminum profile for lighted wardrobe rod

This series will allow you to combine the useful with the aesthetic and will make your parents and friends jealous. Replace your traditional wardrobe rods with these and you will then benefit from continuous lighting directed towards your most beautiful clothes, thus highlighting them. The multiple color, finish, power, lens and assembly options make it a very versatile series. Promoting better heat dissipation, this series will give you uncompromising illumination for many years to come.
